THIS REPORT CONTAINS ASSESSMENTS OF COMMODITY AND TRADE ISSUES MADE BY  
USDA STAFF AND NOT NECESSARILY STATEMENTS OF OFFICIAL U.S. GOVERNMENT  
POLICY

Required Report - public distribution

**Date:** 12/15/2010

**GAIN Report Number:** NL0029

## **Netherlands**

### **Food and Agricultural Import Regulations and Standards - Certification**

### **FAIRS Export Certificate Report**

**Approved By:**

Paul Spencer

**Prepared By:**

Bob Flach

**Report Highlights:**

This report provides a matrix of export certificates for the Netherlands which are not harmonized with the European Union.

## Section I. List of All Export Certificates Required By Government (Matrix) :

Product	Title of Certificate	Attestation Required on Certificate	Purpose	Requesting Ministry	Comments
Chondroisine-sulphate	CVED	-	-	VWA	A CVED for this product is not required in most other EU Member States.
Cochinille	CVED	-	-	VWA	A CVED for this product is not required in most other EU Member States.
Colostrum	Health Certificate	The declaration needs to correspond with the EC health certificate required for the import of heat treated milk for human consumption with the exception of: -11.1a sub VI regarding the cell count and the number of somatic cells -11.1c regarding the requirements for the heat treatment.	Health Certificate	VWA	The FDA and AMS are, however, not able to certify such a certificate for colostrum.  Contact FAS The Hague for latest status.

CVED = Common Veterinary Entry Document VWA = The Dutch Food and Consumer Product Safety Authority

## Section II. Purpose of Specific Export Certificate(s)

The Netherlands, as a member of the EU, conforms to all EU regulations and directives. We therefore recommend that this report is read in conjunction with the EU Certification Guide (GAIN Report Number E49057), and the EU Food and Agricultural Import Regulations and Standards Report (E49058) both produced by the US Mission to the EU in Brussels, Belgium (USEU). For updated reports please contact the USEU or the FAS website:

<http://www.fas.usda.gov/posthome/useu/> and <http://gain.fas.usda.gov/Pages/Default.aspx>

Unfortunately for exporters, the EU's rules on certification for imports are complicated and are not always harmonized across Member States. This report lists the required export certificates for exports to the Netherlands, which are not yet harmonized.

Dutch Customs provides information on imports from which the Food and Consumer Product Safety Authority (VWA) selects the lots for further inspection. The VWA is part of the Ministry of Economic Affairs, Agriculture and Innovation.

The Dutch Food and Consumer Product Safety Authority (VWA)

email: [info@vwa.nl](mailto:info@vwa.nl)

NAK (the Netherlands Inspection Service for Agriculture, [www.nak.nl](http://www.nak.nl)), NAK Horticulture (the Netherlands Inspection Service for Horticulture), the BKD (Flower Bulb Inspection Service, [www.bloembollenkeuringsdienst.nl](http://www.bloembollenkeuringsdienst.nl)), and the KCB (Quality Control Bureau for Vegetables and Fruits, [www.kcb.nl](http://www.kcb.nl)) are responsible for inspection of crop imports.

### Section III. Specific Attestations Required on Export Certificate(s)

For shipment identity checks, the Dutch VWA requires that the seal number of the container be on the health certificate. A seal number on the Bill of Lading is not sufficient as these can be easily re-issued by private companies. If no seal number is present on the health certificate, a physical check is necessary to verify the identity of the shipment.

### Section IV. Government Certificate's Legal Entry Requirements

General principles for certification are laid down in Council Directive 2002/99/EC:

[http://eur-lex.europa.eu/pri/en/oj/dat/2003/l\\_018/l\\_01820030123en00110020.pdf](http://eur-lex.europa.eu/pri/en/oj/dat/2003/l_018/l_01820030123en00110020.pdf)

One of the principles is that: "The certificate must be issued before the consignment to which it relates leaves the control of the competent authority of the country of dispatch". This means that the Health Certificate must be issued and signed before the shipment which it relates to leaves the United States.

### Section V. Other Certification/Accreditation Requirements

Additional declarations, such as amendments, are an undividable part of the original Health Certificate; therefore the VWA has the following requirements:

- Original /official USDA paper with color logo/letterhead.
- Embossed or preferably stamped (preferably other color than text) with a logo or name of the veterinarian.
- A wet signature (preferably other color than text) of the veterinarian.
- One declaration per Health Certificate.

### Appendix I. Electronic Copy or Outline of Each Export Certificate

DISCLAIMER: This report has been prepared by the USDA/Foreign Agricultural Service in The Hague, the Netherlands for U.S. exporters of domestic food and agricultural products. While every possible care was taken in the preparation of this report, the information provided may not be completely accurate either because policies have changed since its preparation,

or because clear and consistent information about these policies was not available. It is highly recommended that U.S. exporters verify the full set of import requirements with their Dutch customer (importer), who is normally best equipped to research such matters with local authorities, before any goods are shipped. Final import approval of any product is subject to the importing country's rules and regulations as interpreted by border officials at the time of product entry.
